Projects

Online Wine Shop

Online Wine shop project is a wine store website where customers can discover the wine they love to drink.

Website Link - <https://minewinebynikitagupta.netlify.app/>

My Contributions:

- Fetched data from JSON server that I deployed on render
- Displayed data on the product page and product details page via APIs that fetches data from the JSON server along with sorting and filtering functionalities.
- Designed a cart and favorites page with delete functionality.

FabAlley

FabAlley is a bold, inclusive and fashion-forward brand aimed at arming women with fashion that is an extension of themselves.

Website Link - <https://faballeybynikitagupta.netlify.app/>

My Contributions:

- The designed landing page for the website including navbar and footer using HTML/CSS and JS

Skin Store

Skin Store is the number 1 destination for premium beauty, delivering the latest in innovative clinical skincare and luxury spa products

Website Link - <https://skinstorebynikitagupta.netlify.app/>

My Contributions:

- The designed landing page for the website including the navbar and footer using HTML/CSS and JS
- Created data for the products in local storage and fetched data on the product page.
